

# HAWLEY HOPPER

## Skid Steer 3/4 Yard Concrete Hopper Cement Bucket

A heavy-duty, American-made concrete hopper built for skid steers and compact tractors. Featuring rugged 7GA steel construction and an industry standard universal quick attach system. It safely handles up to 3/4 cubic yard of concrete for efficient, precise pours, thanks to its robust hydraulic gate and CNC-cut components. Designed and handcrafted in Sand Lake, Michigan, it streamlines tough jobs, saves labor, and is easy to maintain, making it ideal for contractors demanding speed, durability, and reliable local support.

## Concrete Hopper Specifications:

- Universal Skid Steer quick attach(SSQA)
- Capacity:  $\frac{3}{4}$  yards
- Weight: 495lbs
- Length (overall): 82"
- Width (overall): 53.5"
- Height (overall): 30.5"
- $\frac{3}{8}$ " Quick Attach  $\frac{1}{2}$ " Door
- Door Opening: W x H - 10" x 10"
- Chute Mouth Opening Width: 10"
- Lift Capacity Requirements: 3500lbs+
